**JOB ID #: C10227**

**JOB TITLE: Regulatory Manager**

**POSITION LOCATION: Calgary, AB**

**OPERATING AREA: Oil sands**

**Our Client:**

Our client is an integrated international energy company engaged in exploration and production within Canadian oil sands, integrated gas, refining and marketing. Due to growth with their projects, the company is seeking an experienced Regulatory Manager to join their team.

**Reporting Structure:**

This position will report to the VP, In Situ Development.

**Responsibilities/Accountabilities:**

- Responsible for the application and regulatory approval processes associated with in situ development projects.
- Work closely with internal technical teams to collect all information required for the application documentation.
- Liaise with regulators to seek in relation to interpretations, reviews and application approval.
- Manage stakeholder relationships with regulatory organizations and community relations parties.
- Work closely with the Government Relations Manager on project strategies, stakeholder relationship management and communications strategies.
- Manage continuous regulatory and compliance changes required for long term projects.
- Coordinate the long term objectives and management of the Regulatory team as the organization experiences continuous growth.

**Skills/Qualifications:**

- 10+ years of experience in a similar role with a Degree.
- Extensive technical knowledge in regulatory requirements for oil sands projects in Alberta.
- Demonstrated ability to deal with key stakeholders and foster effective business relationships.
- Experience working with regulatory applications for insitu oil sands projects (concept through to execution and approval).
- Strong business acumen.
- Supervisory or leadership skills would be an asset.
- Excellent communication skills are required.

**How to Apply:** If you are interested in this position, please submit your resume in Word or .RTF format to [info@quaderra.com](mailto:info@quaderra.com) including job ID #C10227 in the subject line. Thank you.
