

The Quaderra Group specializes in the placement of technical and executive professionals in the energy and resource industries within Canada and around the globe. We utilize an innovative and proactive approach to reveal hidden talent to our clients and well-matched opportunities for our candidates. Our priority is to maximize the fit between companies and candidates. We look for the right fit – beyond the resume. This means we focus on getting to know YOU. This includes not only your skill set, but understanding what's important to you to help determine what you really want. We work for you – your satisfaction is our success.

JOB ID #: C10238

JOB TITLE: Development Manager

POSITION LOCATION: Calgary, AB

OPERATING AREA: Oil sands

Our Client:

Our client is an integrated international energy company engaged in exploration and production within Canadian oil sands, integrated gas, refining and marketing. Due to growth with their projects, the company is seeking an experienced Development Manager to join their team in Calgary.

This position will be focused on managing the development strategy and scoping of feasibility for early phase development of their in-situ projects. Over the long term, this individual could move into other positions within the company including Project Manager or Operations Manager.

Reporting Structure:

This position will report to the VP, In-Situ Development.

Responsibilities/Accountabilities:

- Lead the project planning for the development of the in-situ projects.
- Execute on feasibility analysis on projects and provide recommendations to senior management on capital investment.
- Work closely with the reservoir and geosciences teams on drilling program planning, long term project development, etc.
- Conduct economic assessments and evaluations on project feasibility and recommend alternative technology opportunities that could be utilized.
- Work with the EPCM companies on identifying initial project scope, infrastructure alternatives, and engineering design.

- Input into Annual Business Plan, Budget and Capital Requirements and Reserve Planning Process.
- Work with the Regulatory group on the regulatory application process for submission when required.

Skills/Qualifications:

- Bachelor of Science in Engineering and membership in APEGGA.
- Minimum 10 years industry experience, including a balance in SAGD/oil sands.
- Previous engineering experience in operations and/or project management for in-situ projects.
- Strong business acumen with proven abilities to execute on feasibility studies, economic reviews, and budget and capital planning.
- Well rounded business experience with demonstrated leadership capabilities.
- Demonstrated experience in maturing assets to development and ultimate production.
- Ability to make critical decisions and direct multiple staff, projects and deadlines.

How to Apply: If you are interested in this position, please submit your resume in Word or .RTF format to info@quaderra.com including job ID #C10238 in the subject line. Thank you.
