

The Quaderra Group specializes in the placement of technical and executive professionals in the energy and resource industries within Canada and around the globe. We utilize an innovative and proactive approach to reveal hidden talent to our clients and well-matched opportunities for our candidates. Our priority is to maximize the fit between companies and candidates. We look for the right fit – beyond the resume. This means we focus on getting to know YOU. This includes not only your skill set, but understanding what's important to you to help determine what you really want. We work for you – your satisfaction is our success.

JOB ID #: C10266

JOB TITLE: Senior Geologist

POSITION LOCATION: Calgary

OPERATING AREA: NW Saskatchewan

Our Client:

Our client is an independent Canadian oil and gas company pursuing a proven growth strategy. They have grown from production of approximately 3,500 boe/day to current production of almost 30,000 boe/day. They are committed to being one of the premier employers in the Calgary oil and gas industry. To this end, they have spent significant time and energy in developing a clear corporate Mission and Vision, and have focused on assembling a highly motivated workforce, committed to growing shareholder value. They work hard to live these Core Values of Respect, Honesty and Integrity, Open-Minded Teamwork, Empowerment and Visionary Leadership. They have invested in their people through the delivery of leadership development and team effectiveness training, and are constantly looking for new ways and opportunities to strengthen their team.

Reporting Structure: VP of Exploration

Responsibilities/Accountabilities:

Our client has an immediate opening for a Geologist in the **NW Saskatchewan Heavy Oil Area**. They are seeking a highly motivated individual who can work within a multi-disciplinary team and is interested in helping to grow the company. The successful candidate will be responsible for oil and gas exploration and development, with a primary focus on developing new opportunities through exploration and acquisition in order to grow production and increase value.

Skills/Qualifications:

- A B.Sc. in Geology with 8-18 years maximum of oil and gas experience; 3+ years of Eastern Alberta/Western Saskatchewan heavy oil experience is a requisite
- Proven track record and reputation as a successful low cost oil and gas finder

- Strong structural and stratigraphic mapping skills to develop and initiate well recompletions, re-entries, infill, outpost and new pool vertical and horizontal drilling programs
- Experience in field depletion planning and implementation of field development, secondary and advanced recovery techniques
- Strong Petrophysical and sample/core analytical and interpretation skills
- Ability to integrate 3D seismic interpretations into geological maps
- Strong operational and organizational skills with regulatory experience
- Solid computer skills; GeoScout experience would be an asset
- Strong business acumen
- Ability to communicate well with others and work in multidisciplinary teams
- Opportunity driven; ability to identify an opportunity and go after it
- Creative, enthusiastic and results oriented; a self starter with the ability to set goals and achieve or exceed them

Compensation/Remuneration:

Competitive salary with options, LTI, benefits, summer hours etc.

How to Apply: If you are interested in this position, please submit your resume in Word or .RTF format to info@quaderra.com including job ID #C10266 in the subject line. Thank you.
