**JOB ID #: C10274**

**JOB TITLE: Production Engineer**

**POSITION LOCATION: Calgary, AB**

**OPERATING AREA: West/Central Alberta**

**Our Client:**

Our client is a publicly traded oil and gas company engaged in the exploration, acquisition, development and production of oil and natural gas in Western Canada with production of approximately 8,000 boe/d. The organization is growth orientated, drilling more than 100 wells per year and is actively looking to acquire high quality properties in western Canada. The company has a new focus on deeper oil and gas prospects which has generated the requirements for an experienced Production Engineer to join their operations teams.

**Reporting Structure:**

This role reports to the Production Manager.

**Responsibilities/Accountabilities:**

- Responsible for the daily production of deep liquid-rich gas wells, horizontal oil wells and related facilities.
- Plan new well tie-ins, facility design, well workovers.
- Work closely with field staff supporting day-to-day operations as well as being involved in formal project work, well review and operating cost analysis.
- Oversee production forecasting and reporting.
- Manage operating costs and the overall profitability of the areas of responsibility.
- Monitor variable fees associated with 3<sup>rd</sup> party facility usage.
- Work closely with facilities and completions teams on new projects and property initiatives to enhance production.

**Skills/Qualifications:**

- APEGGA Professional Engineer with Bachelor of Engineering degree.
- Minimum of 5 to 10 years Production / Operations Engineering experience within a producer environment.
- Prior experience with conventional gas and oil operations is required.
- Proven abilities with field, well, and facility optimization.
- Strong technical knowledge of plant operations, compression and pumping well analysis is required.
- Regulatory knowledge with ERCB is required.
- Ability to work well within a fast-paced, dynamic team environment.
- Motivated self-starter with the ability to generate solutions.
- Excellent communication and interpersonal skills.
- Proven abilities to work effectively with field based operations staff.
- Ability to prepare and present quality projects and meet deadlines.

**Compensation/Remuneration:**

Our client offers a fast-paced, team-oriented and individually rewarding work environment and a competitive compensation package, including generous option grants, bonus, and employee savings plan.

**How to Apply:** If you are interested in this position, please submit your resume in Word or .RTF format to [info@quaderra.com](mailto:info@quaderra.com) including job ID #C10274 in the subject line. Thank you.
