**JOB ID #: C11486**

**JOB TITLE: Maintenance Manager**

**POSITION LOCATION: Fort McMurray, 4/3 fly in and out**

**OPERATING AREA: Athabasca Oil Sands**

**Our Client:**

Our client is an oil and gas exploration and production company focused on the development of in-situ oil sands in Alberta's Athabasca region, and the thermal production of approximately 4,500 barrels per day of heavy oil in Saskatchewan. A company poised and prepared for growth; they are an attractive oil sands producer and are currently in the process of constructing a 12,000 boe/d SAGD project located 40 km northwest of Fort McMurray. They are a dedicated, hard working, entrepreneurial organization committed to providing a safe and challenging work environment while focusing on the values of a team. As a result of an active growth strategy, they are looking to add a few key members to their team to pursue their active growth strategy.

This is an exciting opportunity for a Maintenance Manager to be a part of the commissioning and start-up of our client's SAGD Facility. Reporting to the Area Manager, the Maintenance Manager will be responsible for building a maintenance department and establishing the systems and processes for maintenance planning and execution.

**Reporting Structure:**

This role reports to the Area Manager.

**Responsibilities/Accountabilities:**

- Build maintenance organization and recruit employees and contractors.
- Develop and manage:
  - Maintenance & repair budget
  - Employee & contractor staffing plan

- Key supply agreements
- System & equipment strategies – define criticality and sparing philosophy
- 5 year major maintenance calendar
- Planning, scheduling, coordination and execution
- Maintenance and purchasing systems and processes
- Computerized maintenance management system
- Critical spares inventory
- Condition monitoring program
- Mechanical, piping, electrical, instrument and lubricant
- Refurbishment program
- PM's, standards and procedures
- Warehousing operations
- Licensor and vendor performance guarantees, terms, conditions & expiry dates.

**Skills/Qualifications:**

As the ideal candidate, you will be a Journeyman tradesperson or technical equivalent with 10 years combined experience in maintenance planning and scheduling, inventory management and progressive leadership roles. Experience in a SAGD or heavy oil environment would be a definite asset as well as commissioning, start-up, shut-down and turnaround experience

**Compensation/Remuneration:**

Competitive base salary including benefits, and options.

**How to Apply:** If you are interested in this position, please submit your resume in Word or .RTF format to [info@quaderra.com](mailto:info@quaderra.com) including job ID #C11486 in the subject line. Thank you.
